Additional Recommendations

1. For Heavy Soiled Mats, increase temperature up to max. 60°C.
3. Break should not exceed pH of 9,5; use low pH non-ionic detergents
4. Do not overdry mats; Basket-temperature of dryer should not exceed 82°C
5. If mats are not dried, final rinse can be increased to 49°C. This will reduce moisture retention following extraction
6. Lay Mats flat following removal from washer; allow mats to cool before rolling
